TIME AND MANNER OF DISTRIBUTION

- (5) Required Beginning Date. The member's entire interest will be distributed, or begin to be distributed, to the member no later than the member's required beginning date.
- (6) Death of Member Before Distributions Begin. If the member dies before distributions begin, the member's entire interest will be distributed, or begin to be distributed, no later than as follows:
 - (i) If the member's surviving spouse is the member's sole designated beneficiary, then, except as provided in the Plan, distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained age 70 ½, if later.

 - (iv) If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to the surviving spouse begin, this paragraph (6) will apply, other than paragraph (6)(i), as if the surviving spouse were the member.

For purposes of paragraph (6) and paragraphs (11), (12) and (13), distributions

are considered to begin on the member's required beginning date (or, if paragraph (6)(iv) applies, the date distributions are required to begin to the surviving spouse under paragraph (6)(i)). If annuity payments irrevocably commence to the member before the member's required beginning date (or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under paragraph (6)(i)), the date distributions are considered to begin is the date distributions actually commence.

(7) Form of Distribution. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution calendar year, distributions will be made in accordance with paragraphs (8) through (13) of this section. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of section 401(a)(9) of the IRC and the Treasury regulations.  - (iii) Once payments have begun over a period certain, the period certain will not be changed even if the period certain is shorter than the maximum permitted.
- (9) Amount Required to Be Distributed by Required Beginning Date. The amount that must be distributed on or before the member's required beginning date or, if the member dies before distributions begin, the date distributions are required to begin under paragraphs (6)(i) or (ii) is the payments that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, e.g., bi-monthly, monthly, semi-annually, or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year will be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.
- (10) Additional Accruals after First Distribution Calendar Year. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year will be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues.

REQUIREMENTS FOR MINIMUM DISTRIBUTIONS WHERE MEMBER DIES BEFORE DATE DISTRIBUTIONS BEGIN.

- (13) Death of Surviving Spouse Before Distributions to Surviving Spouse Begin. If the member dies before the date distribution of his or her interest begins, and the member's surviving spouse is the member's sole designated beneficiary, and the surviving spouse dies before distributions to the surviving spouse begin, this section will apply as if the surviving spouse were the member, except that the time by which distributions must begin will be determined without regard to paragraph (6)(i).

Such percent shall be 90 percent increased by 2.5 percent for each full year elapsed since his disability Retirement.

If such refusal continues for one year his rights in and to a disability Retirement Allowance may be revoked by the Commission. If upon such medical examination of a disability Retirant, the medical director certifies to the Commission that disability as required for Retirement under Section 30 no longer exists, and his report is concurred in by the Commission, the disability Retirement Allowance shall be terminated.

- (a) Any Member who continues in the employ of an Employer on or after the date he either (1) has acquired 15 or more years of Credited Service, or (2) has acquired 10 or more years of Credited Service and has attained age 60 years, may at any time prior to his Retirement elect Option A provided in Section 27 and nominate a Beneficiary. Prior to his Retirement a Member may revoke his said election of Option A and nomination of Beneficiary and he may again, prior to his Retirement, elect the said Option A and nominate a Beneficiary as provided in this section. Upon the pre-retirement death of a Member who has an Option A election in force, his Beneficiary, if living, shall immediately receive a Retirement Allowance computed according to Section 25, exclusive of subsection (b), in the same manner in all respects as if the Member had retired under Option A the day preceding the date of his death, notwithstanding that he might not have attained age 60 years. If a Member has elected Option A, his said election of Option A and nomination of Beneficiary shall thereafter continue in force unless subsequent to that election and prior to his Retirement, he elects to take his Retirement Allowance as a straight life Retirement Allowance or under Option B or Option C provided in Section 27.

(b) For a Member who has not satisfied the Service credit requirements of subsection (a) and accordingly does not have an Option A nominated Beneficiary prior to pre-retirement death, but was eligible to purchase prior governmental service credit pursuant to Section 18, and had not done so prior to death, the Reciprocal Retirement Act may be utilized to recognize such service credit. Such recognized service credit shall be used to satisfy the Service credit requirements of subsection (a) only and shall not be utilized in the calculation of the Retirement benefit. In this instance only, the Option A benefit otherwise provided in subsection (a), shall be paid to such Person as the Member nominated for a refund of their Accumulated Contribution as provided in Section 37. No benefit shall be paid under this subsection on account of the death of a Member if any benefits are paid under section 36 on account of his death.

(c) No benefits shall be paid under this section on account of the death of a Member if any benefits are paid under Section 34 on account of his death.

(d) Death Benefits

In the case of a death occurring on or after January 1, 2007, if a Member dies while performing qualified military service (as defined in Internal Revenue Code § 414(u)), the survivors of the Member are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Member has resumed and then terminated employment on account of a non-duty related death. For these purposes, the Member shall be entitled to service credit under the Plan for the period of qualifying military service.

Ordinary Death Benefits - Widow or Widower Beneficiary Automatic:

Section 36.

Any Member who continues in the employ of an Employer on or after the date he either (1) has acquired 15 years of Credited Service, or (2) has acquired 10 or more years of Credited Service and he has attained age 60 years, and does not have an Option A election in force as provided in Section 35, and (1) dies while in the employ of an Employer and (2) leaves a widow, or in the case of a female Member leaves a widower, the widow or widower shall immediately receive a Retirement Allowance computed according to Section 25, exclusive of subsection (b), in the same manner in all respects as if the Member had (1), retired the day preceding the date of his death, notwithstanding that he might not have attained age 60 years, (2) elected Option A provided in Section 27 and (3) nominated his said widow or widower as Beneficiary. For a Member who has not satisfied the Service credit requirements of this section prior to the pre-retirement death, but was eligible to purchase prior governmental service credit pursuant to Section 18, and had not done so prior to death, the Reciprocal Retirement Act may be utilized to recognize such service credit. Such recognized service credit shall be used to satisfy the Service credit requirements of this section only and shall not be utilized in the calculation of the Retirement benefit. No benefits shall be paid under this paragraph on account of the death of a Member if any benefits are paid under Section 34 on account of his death.

Refund of Member's Accumulated Contributions:

Section 37.

- (a) Except as otherwise provided in this Ordinance, should any Member cease to be employed by an Employer, for any reason except his Retirement or death, before he has satisfied the age and Credited Service requirements for Retirement provided in Section 22 or 23, he shall be paid his Accumulated Contributions standing to his credit in the Employees' Savings Fund upon his request in writing filed with the Retirement Commission.
- (b) Should a Member die and no Retirement Allowance becomes or will become payable by the Retirement System on account of his death his Accumulated Contributions standing to his credit in the Employees' Savings Fund at the time of his death shall be paid to such Person or Persons as he shall have nominated by written designation duly executed and filed with the Commission. If

there be no such designated Person surviving the Member his said Accumulated Contributions shall be paid to his legal representative.

- (c) Should a Member die, without heirs and without a designated Beneficiary surviving him, his Accumulated Contributions standing to his credit in the Employees' Savings Fund at the time of his death may be used to pay his burial expenses, not to exceed a reasonable sum to be determined by the Commission, provided that he leaves no other estate sufficient for such purpose.
- (d) Payment of Accumulated Contributions, as provided in this section may be made in installments according to such rules as the Commission may from time to time adopt.
- (e) (1) This subsection applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the Ordinance to the contrary that otherwise would limit a Distributee's election under the Ordinance, a Distributee may elect, at the time and in the manner prescribed by the Commission, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Distributee in a Direct Rollover.

(A) Definitions.

- (I) Eligible Rollover Distribution: An "Eligible Rollover Distribution" is any distribution of all or any portion of the balance to the credit of the Distributee, except that an Eligible Rollover Distribution does not include: Any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the Distributee or the joint lives (or joint life expectancies) of the Distributee and the Distributee's designated Beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Internal Revenue Code Section 401 (a)(9); and the portion of any distribution that is not includible in gross income.
 - (II) Eligible Retirement Plan: an "Eligible Retirement Plan" is an individual retirement account described in Internal Revenue Code Section 408 (a), an individual retirement annuity described in Internal Revenue Code Section 408 (b), an annuity plan described in Internal Revenue Code Section 403 (a), or a qualified trust described in Internal Revenue Code Section 401 (a), that accepts the Distributee's Eligible Rollover Distribution. However, in the case of an Eligible Rollover Distribution to the surviving spouse, an Eligible Retirement Plan is an individual retirement account or individual retirement annuity.
 - (III) Distributee: A "Distributee" includes an Employee or former Employee. In addition, the Employee's or former Employee's surviving spouse and the Employee's or former Employee's spouse or former spouse who is the alternate payee under the eligible domestic relations order act, Act No. 46 of the Public Acts of 1991, are Distributees with regard to the interest of the spouse or former spouse.
 - (IV) Direct Rollover: A "Direct Rollover" is a payment by the Retirement System to the Eligible Retirement Plan specified by the Distributee.
- (B) If a distribution is one to which sections 401(a)(11) and 417 of the Internal Revenue Code do not apply, such distribution may commence less than 30 days after the notice required under section 1.411(a)-11(c) of the Income Tax Regulations is given, provided that:
- (I) The Retirement Commission clearly informs the Member that the Member

has a right to a period of at least 30 days after receiving the notice to consider the decision of whether or not to elect a distribution (and, if applicable, a particular distribution option), and

- (II) The Member, after receiving the notice, affirmatively elects a distribution.
- (2) This subsection shall apply to distributions made after December 31, 2001.
- (A) For purposes of the Direct Rollover Provisions in this section, an Eligible Retirement Plan shall also mean an annuity contract described in section 403(b) of the Internal Revenue Code and an eligible plan under section 457(b) of the Internal Revenue Code which is maintained by a state or political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state and which agrees to account separately for amounts transferred into such plan from this Retirement System. The definition of Eligible Retirement Plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in section 414(p) of the Internal Revenue Code, or an eligible domestic relations order under the eligible domestic relations order act.
 - (B) For purposes of the Direct Rollover provisions in this section, a portion of a distribution shall not fail to be an Eligible Rollover Distribution merely because the portion consists of after-tax Employee contributions which are not includible in gross income. However, such portion may be paid only to an individual retirement account or annuity described in section 408(a) or (b) of the Internal Revenue Code, or to a qualified defined contribution plan described in section 401(a) or 403(a) of the Internal Revenue Code that agrees to account separately for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

Members. The Pension Reserves so computed shall be financed by annual appropriations to be made by the Employers and determined as hereinafter provided in this subsection. The Retirement Commission may establish such groups of Members as it deems proper for the purpose of computing such reserves and determining such appropriations.

- (1) The annual appropriation for each group of Members' current Service shall be a percent of their annual Compensation which will be an amount which if paid annually by the Employer during their future Service will be sufficient to provide the Pension Reserves at the time of their Retirements, for the portions of the Pensions to be paid them based upon their future Service.
 - (2) The annual appropriation for each group of Members' accrued Service shall be a percent of their annual Compensations which will be an amount which if paid annually by the Employers over a period of years, to be determined by the Commission, will amortize at Regular Interest the unfunded Pension Reserves, if any, for the accrued Service portions of the Pensions to be paid them upon their Retirements.

There shall be paid or transferred from the Income Fund all amounts required to credit Regular Interest to the Employees' Savings Fund, Retirement Reserve Fund, and Pension Reserve Fund, as provided in this Ordinance. Whenever the Commission determines that the balance in the Income Fund is more than sufficient to cover current charges to the fund such excess amount, or any part thereof, may be used to provide contingency reserves or to meet the special requirements of the other funds of the Retirement System, except the Expense Fund. Whenever the balance in the Income Fund is insufficient to meet the charges to fund the amount, such insufficiency shall be transferred from the Pension Reserve Fund to the Income Fund.
- (b) The Expense Fund is hereby continued. The Expense Fund shall be the fund to which shall be credited all money provided by Employers to pay the administrative expenses of the Retirement System and from which shall be paid all expenses necessary in connection with the administration of the Retirement System.

A duly attested copy of a resolution adopted by the Retirement Commission designating such persons and bearing upon its face specimen signatures of such persons shall be filed with the County Controller as his authority for making payments upon such vouchers. If a Member is covered under a group insurance or prepayment plan participated in by the County or his Employer, and should he be permitted to, and elect to, continue such coverage as a Retirant, he may authorize the Retirement Commission to have deducted from his Retirement Allowance the payments required of him to continue coverage under such group insurance or prepayment plan. The County or an Employer has the right of setoff for any claim arising from embezzlement or by fraud of a Member, Retirant, or Beneficiary.

The right of a Member, deferred vested Member who meets the requirements of Section 26, or retired

Member to a Pension, to the return of Member contributions, to any optional benefit, or any other benefit under this Ordinance is subject to award by a court pursuant to Section 18 of Chapter 84 of the revised statutes of 1846, being Section 552.18 of the Michigan Compiled Laws, and to any other order of a court pertaining to alimony or child support. If an award or order described in the foregoing paragraph requires the Retirement System to withhold payment of a Pension, deferred Pension, Accumulated Contributions, or other benefit from the Person to whom it is due or requires the Retirement System to make payment or requires the Person to request that the Retirement System make payment of a Pension, deferred Pension, Accumulated Contributions, or other benefit, for the purpose of meeting the Person's obligations to a spouse, former spouse or child, as provided in said paragraph, the withholding or payment provisions of the award or order is effective only against such amounts as they become payable to the Person receiving a Retirement Allowance unless otherwise provided in an eligible domestic relations order under the eligible domestic relations order act, as amended [MCL 38.1701 et seq.], pursuant to MCL 552.18. The limitation contained in this subsection does not apply to the Accumulated Contributions of a Person who terminates employment before acquiring a vested Member status.

For purposes of eligible domestic relations order computations pursuant to the eligible domestic relations order act, Act 46 of the Public Acts of 1991, as amended [MCL 38.1701 et seq.], pursuant to MCL 552.18, the Retirement System shall use the interest rates and underlying unisex mortality table specified by the Pension Benefit Guaranty Corporation (PBGC) for calculating the actuarial present value of immediate and deferred pensions under a terminated pension plan as provided in Part 2619 of Subchapter C or Chapter XXVI of Title 29 of the Code of Federal Regulations, 29 C.F.R. Part 2619. Interest rates used for eligible domestic relations order calculations shall be the rates specified by the PBGC for the second month preceding the date of commencement of the alternate payee's benefit.

- (a) Errors: Should any change in the records result in any Person receiving from the Retirement System more or less than he would have been entitled to receive had the records been correct, the Retirement Commission shall correct such error, and as far as practicable shall adjust the payment in such manner that the actuarial equivalent of the benefit to which the said Person was correctly entitled shall be paid; provided, however, that for errors discovered on or after January 1, 2001, a Person receiving more than he or she would have been entitled not as a result of the non-disclosure, fraud, misrepresentation, or other fault of that Person or of the Person through whom that Person is due benefits, shall not have such payments occurring more than three (3) years prior to the discovery of the error considered in the adjustment. Notwithstanding the foregoing, if the Person or the Person through whom that person is due benefits (i) provided incorrect information which caused the error, (ii) failed to provide information that was necessary to calculate the payment correctly, (iii) caused the providing of incorrect information or failed to provide necessary information, or (iv) knew or reasonably should have known that he or she was in receipt of an erroneous payment, all such payments, including payments occurring more than three (3) years prior to the discovery of the error, shall be considered in the adjustment.
- (b) Protection Against Fraud: Whoever with intent to deceive shall make any statements and/or reports required under this Ordinance which are untrue, or shall falsify or permit to be falsified any records of the Retirement System, or who shall otherwise violate, with intent to deceive, any of the provisions of this Ordinance, shall be guilty of a misdemeanor and upon conviction shall be fined not to exceed \$500.00, plus costs of prosecution, or sentenced to 90 days imprisonment, or both, in the discretion of the court.

Subrogation Provision:

Section 48.

In the event an individual becomes entitled to a Pension as the result of an accident or injury, or wrongful death caused by the act of a third party, the Employer shall be subrogated to the rights of the said individual against such third party to the extent of the costs due to sick leave, life insurance, and/or workers compensation which the Employer was, is, or shall be obligated to pay, as determined by the Retirement Commission.

Laws Inconsistent Repealed:

Section 49.

All provisions of law, ordinance, resolution, or local act inconsistent with the provisions of this Ordinance are hereby repealed to the extent of such inconsistency insofar as authority vested in the Board of Commissioners to repeal same.

Savings Provision:

Section 50.

If any part of this Ordinance or the application thereof to any office, position, Person or Retirement, or to any class of any of those, or to any time, period of time, circumstance or class of circumstances, is for any reason held by a court to be invalid or unconstitutional, such holding shall not affect the remaining parts or applications of this Ordinance which can be given effect without the invalid or unconstitutional portion or application, provided the relevant remaining parts or applications are not determined by the court to be inoperable, and to this end the provisions and applications of this Ordinance are made severable.

Section 51.

As to the Retirement System established by this Ordinance, Genesee County and each other Employer is hereby declared to be and is made a reciprocal unit of government under and subject to the Reciprocal Retirement Act, Act No. 88 of the Michigan Public Acts of 1961, as amended, MCL 38.1101 et seq., the provisions of which public act are hereby adopted and made a part of the Ordinance.

Terms defined in this subsection are so defined for purposes of this subsection only. Redeterminations made pursuant to this subsection will be made in accordance with the following provisions:

- (1) Redeterminations will be made for each calendar year, commencing with 2001.
- (2) Qualified Recipients for each year's redetermination will be retirees who: a) at the time of their last employment by an Employer were not officers, agents, or contractors of that Employer, within the meaning of Article 11, Section 3 of the Constitution of 1963; b) retired prior to January 1, 2001; and c) are otherwise eligible for that year's redetermination. Retirees otherwise eligible for the redetermination for 2001 are those who retired prior to January 1, 1993. For each redetermination subsequent to that for 2001, the date by which the retiree must have retired, to be otherwise eligible, will be one year later than the applicable date for the immediately preceding redetermination.

Beneficiaries of deceased retirees, who are receiving Retirement Allowances from the System, also will be Qualified Recipients if their respective retirees would have been Qualified Recipients if they had been still living on December 1 of the year for which the redetermination is being made.

- (3) The redetermination for each year will be made as of December 1 of that year. The provisions of subparagraph (2) above notwithstanding, an additional requirement of being a Qualified Recipient is that one be entitled, without reference to this subsection, to receive a Retirement Allowance as of December 1 of the year for which the redetermination is being made.
 - (4) The redetermined Pension for each year will be the sum of: a) the Base Pension, which is the Pension payable under this Ordinance without inclusion of any Adjustment Amount, being an Adjustment Amount under this subsection as amended by the Genesee County Board of Commissioners on or after November 10, 1997, but also without inclusion of any non-permanent adjustment previously approved by the Retirement Commission; and b) the Adjustment Amount, if any. Each redetermination shall be applicable only for the year for which made. The Base Pension is the minimum Pension payable under this Ordinance and will be payable for each year unless and until an Adjustment Amount is added.
 - (5) Additional Investment Earnings are the amount, if any, by which investment earnings attributable to the assets in the Retirement Reserve Fund (which fund also has been denominated, by the Retirement Commission's actuary, as the reserve for retired benefit payments), for the calendar year immediately preceding the year for which the redetermination is being made, at the approximate nominal investment return rate stated for that preceding year, by the Retirement Commission's actuary in the annual actuarial valuation, would exceed what those earnings would have been had the return rate been 8%, plus the total of all adjustment amounts calculated pursuant to subparagraph (7) below.
 - (6) If there are any Additional Investment Earnings, the Qualified Days will be calculated for each Qualified Recipient. Qualified Days will be the total days of Credited Service of the retiree plus the elapsed days from Retirement through November 30 of the year for which the redetermination is being made.
 - (7) The Adjustment Amount as to each Qualified Recipient will be determined by multiplying the number of Qualified Days for that Qualified Recipient by \$0.045.
 - (8) The Adjustment Amount for each year will be paid in a single payment, as of December 1 of that year.
 - (9) All above provisions of this subsection notwithstanding, no Adjustment Amount shall either contravene, or cause a Retirement Allowance to contravene, either the requirements of the Internal Revenue Code for tax qualification of the Genesee County Employees' Retirement System or the requirements of MCL 46.12a. In the event an Adjustment Amount would contravene, or so cause contravention of, any such requirements, that Adjustment Amount will be limited to the maximum amount, if any, as would not so contravene or so cause contravention.
- (b) General County, Community Mental Health, Sanitary Sewers, and Genesee District Library Authority: Employees who are not members of unions shall be entitled to the following Retirement Allowance adjustment benefit, and Employees who are members of unions shall be entitled to the Retirement Allowance adjustment as stated in the Applicable Union Contract.
- (1) The Pensions of Employees retiring shall be adjusted by up to two percent (2%) per year for the first five (5) years of Retirement beginning with January 1st after the Employee has been retired one full year and, effective September 24, 1990, for Members who are

Sanitary Sewers Employees said adjustment shall be up to three percent (3%) per year for the first five (5) years of Retirement beginning with January 1st of the first January following the Employee's Retirement. The adjustment shall be based on the official Consumer Price Index for Urban Wage Earners and Clerical Workers (including single workers) - "all items", published by the Bureau of Labor Statistics, U.S. Department of Labor (1967 = 100) and hereinafter referred to as the B.L.S. Consumer Price Index. Effective January 1, 1993, the Pensions of only Genesee County Employee Members who are appointed officials or appointed officers (except holders of elective office, which exception shall terminate effective January 1, 1995 for said holders of elective office other than the Chairperson and other members of the Board of County Commissioners, and which exception shall terminate effective upon commencement of the 1995-96 term of office on January 1, 1995 for the Chairperson and other members of the Board of County Commissioners), or exempt Employees, or non-union classified Employees, retiring on or after said date, and effective January 1, 1997 at 12:00 noon, the Pensions of all other General County Employees who are not members of a County employee labor organization, retiring after said date and time, shall be adjusted by three percent (3%) for each of the first five (5) years following Retirement, the initial adjustment shall be payable with the next Retirement Allowance payment to be made after the completion of one (1) full year of Retirement, and the adjustment shall not be based on the B.L.S. Consumer Price Index, and any prior year adjustment shall not be included in computing the subsequent year Retirement Allowance. Effective July 1, 2002, for Members who are Water and Waste Services (Sanitary Sewers) non-union Employees, said adjustment shall be three and one-half percent (3.5%) of the initial Pension amount for each of the five (5) years beginning after completion of two (2) full years of Retirement, and the adjustment shall not be based on the B.L.S. Consumer Price Index, and any prior year adjustment shall not be included in computing the subsequent year Retirement Allowance.

- (2) The adjustment will be effective with the check for January which is paid at the end of January. The B.L.S. Consumer Price Index for the twelve (12) month period ending with November (September for Sanitary Sewers) of the previous year shall be used.
- (3) The amount of any Pension adjustment shall be one percent (1%) for each two percent (2%) increase in the B.L.S. Consumer Price Index during the base period. Changes in the index which result in an adjustment of more than one and one-half percent (1 1/2%) will result in an adjustment of one percent (1%), but a change in the index which would result in an adjustment of one and one-half percent (1 1/2%) or less will be computed at the next lower percent.
- (4) In the event of a decline in the B.L.S. Consumer Price Index in any base period a wage adjustment shall be made in the reverse order that the upward adjustments in rates were provided in subsection (3) above, except for Sanitary Sewers non-union Employees and Sanitary Sewers Employees who are members of Local 1918 of the American Federation of State, County, and Municipal Employees Union who shall not suffer any reduction in any adjustment below the Pension amount computed at the beginning of the five (5) year period..
- (5) In the event the B.L.S. does not issue the Consumer Price Index on or before January 15th, any adjustments required will be made on the next Pension check or on the earliest check when the Consumer Price Index is made available.
- (6) No adjustments retroactive or otherwise shall be made due to any revisions which may later be made in the published figures for the B.L.S. Consumer Price Index for any base month.
- (7) The continuance of any adjustment is dependent on the availability of the monthly B.L.S. Consumer Price Index in its present form and calculated on the same basis as the B.L.S. Consumer Price Index published in October of the preceding year.

- (c) Employees of the Genesee County Road Commission and Sanitary Sewers (also denominated Water and Waste Services), who are members of unions shall be entitled to adjustment of original Pension amount per year as stated in the Applicable Union Contract. An exempt Employee of the Genesee County Road Commission or Sanitary Sewers shall receive a three percent (3%) increase on the original Pension amount annually, not compounded, in each of the five (5) years after date of Retirement; provided however, that in the case of an exempt Employee of Sanitary Sewers, his or her date of Retirement is on or after June 1, 2000; and provided further, that in the case of an exempt Employee of Sanitary Sewers who is an appointed official or officer, his or her Retirement date is on or after October 1, 2001.

A Covered Employee with Credited Service as of the Initial Qualifying Date sufficient to qualify for a Retirement Cash Incentive, who does not retire on or before the ninetieth (90th) day after the Initial Qualifying Date, shall no longer be eligible for any Retirement Cash Incentive. Only Credited Service attained as of the Initial Qualifying Date, excluding any and all Generic Time that may have been purchased by an Employee, shall be used to qualify for a Retirement Cash Incentive.

Covered Employees who have attained Credited Service as provided above prior to the Initial Qualifying Date and who Retire Between the Program Approval Date and the Initial Qualifying Date shall receive the above respectively indicated Retirement Cash Incentive.

A qualifying Employee may receive both a Retirement Cash Incentive under the above provisions and the applicable Retirement Allowance provided for either below in Subsection (e) or separately from this Section.

Persons qualifying for a Retirement Cash Incentive will be issued payment on the Cash Incentive Payment Date and such payment will not be included in any Final Average Compensation.

- (e) All Covered Employees who have attained a minimum of twenty (20) years of Credited Service as of the Initial Qualifying Date shall be eligible to receive a straight life Retirement Allowance option equal to fifty-five percent (55%) of Final Average Compensation, provided they retire no later than ninety (90) days after the Initial Qualifying Date.

Any Covered Employee eligible for one of the straight life Retirement Allowances provided for hereinabove in this subsection may instead, within the time frames applicable to eligibility for such straight life allowance, select a Retirement option regularly offered through this Ordinance, other than straight life allowance, and thereby receive the actuarial equivalent of the hereinabove provided for straight life allowance amount in a reduced Retirement Allowance.

Any Covered Employee who, but for this Subsection, is or shall have become entitled to a Retirement Allowance higher than that hereinabove provided for in this subsection is or shall be entitled to that higher allowance. Any Retirement Allowance received pursuant to this Subsection shall be adjustable to the same extent as provided for other allowances pursuant to Section 52 of this Ordinance.

- (f) Covered Employees shall be afforded the opportunity to purchase not more than five (5) years of Generic Time, at the rate of ten percent (10%) of the Employee's full-time annual Compensation for the year in which payment begins, multiplied by the number of years of Generic Time being purchased. Each day of Generic Time may be purchased at the rate of .0274% of the Employee's full-time annual Compensation for the year in which payment begins.

An Employee's full-time annual Compensation for the year in which payment begins, for purposes

only of calculating the purchase cost of Generic Time under the Program, shall be the product of 2,080 and the Employee's Hourly Wage Rate at the time payment begins. Part-time Employees also may purchase not more than five (5) years of Generic Time. For purposes only of calculating the purchase cost of Generic Time for a part-time Employee, such an Employee shall be deemed to have a full-time annual Compensation, which annual Compensation shall be the product of 2,080 and the Employee's Hourly Wage Rate.

Generic Time may be paid for in a lump sum, or by conversion of accumulated vacation and/or cash compensable compensatory time, or payroll deduction, or through a combination of any number of these payment methods. Amounts paid for the purchase of Generic Time, including but not limited to amounts paid by the County as the value balance, as hereinafter provided for, applied to the purchase of Generic Time through conversion of accumulated vacation and/or cash compensable compensatory time, shall be deposited with the System, as Employee contributions.

The purchase of Generic Time shall be permitted only after the cost of doing so has been calculated and confirmed by the County Retirement Office, and an application for the purchase, which application shall be made after such cost has been so confirmed, has been made through that Office. Each Employee deciding to purchase Generic Time must specify in writing the full amount that will be purchased and the method(s) of payment to be used, at the time of application to purchase Generic Time. Such application must be submitted to the Retirement Office during the period commencing with the initial Generic Time Purchase Application date and concluding with the Offering Period ending date, and prior to Retirement or other termination of employment. Payment must be made, or payments must begin, within thirty (30) days of the date of application.

Under the payroll deduction method of paying for Generic Time, monies may be paid on a biweekly basis at a minimum of twenty-five dollars (\$25.00) per pay using the following schedule:

<u>Amount Being Paid Through Deductions</u>	<u>Maximum Payment Completion Period Measured from First Payment</u>
0 - \$1,500	one (1) year
\$1,500 - 3,000	two (2) years
3,000 - 4,500	three (3) years
above \$4,500	four (4) years

Under the conversion of vacation and/or compensatory time method of paying for Generic Time, Employees shall be allowed to convert accumulated vacation time or cash compensable compensatory time for such amount of Generic Time as could be purchased with the value balance described below. Vacation and cash compensable compensatory time shall be valued on the basis of the Employee's Hourly Wage Rate at the time payment begins. Income and Social Security Taxes shall be withheld on the basis of such value at the time of the conversion, and the amount of Generic Time so purchased shall be based upon the value balance remaining after such withholding. The arrangement to purchase the Generic Time shall specify the date(s) on which such vacation or compensatory time is to be so exchanged. As to each of these two types of time, not more than two exchange dates shall be permitted. The value of vacation time or cash compensable compensatory time used to buy Generic Time shall not be included in the computation of Final Average Compensation.

Each Employee shall be allowed only one application and arrangement for purchase. Once an arrangement for purchase is made, the arrangement (whether as to the amount of Generic Time to be purchased, the timing or method of payment for it, or some combination of these) shall not thereafter be adjusted more than once; provided, however, that a total balance owing under a payment method or combination of methods other than lump sum may be satisfied through a lump sum payment even though there has been one previous adjustment in the arrangement. In any event, payment for the total arranged purchase must be completed by the completion date arranged or, if the Employee should retire or experience other termination of employment before the date arranged for such completion, before such Retirement or other termination.

No purchased Generic Time will be applied as Credited Service unless and until the full amount arranged to be purchased has been paid for in accordance with the above provisions.

Employees exercising this option to purchase Generic Time who do not retire on or before ninety (90) days after the later of the Approval Date or the attaining of twenty (20) years of Credited Service shall forfeit all purchased Generic Time. Employees exercising this option who do not attain a minimum of twenty (20) years of Credited Service during the Offering Period must retire no later than ninety (90) calendar days after attaining the minimum amount of Credited Service needed to retire.

Failure to pay in accordance with the above provisions for all Generic Time arranged to be purchased, and failure to retire within the above specified ninety (90) days, shall each result in forfeiture of all purchased Generic Time. In such event, and subject to the remaining provisions of this paragraph with respect to cases where Generic Time was purchased through conversion of accumulated vacation or compensatory time, refund of contributed monies plus interest, if any, shall be made to the Employee following application for refund. The conditions for payability, and the rate, of such interest, if any, shall be equivalent to the conditions and rate applicable to refunds of other Employee contributions under the System. In those cases where accumulated vacation time and/or cash compensable compensatory time have been utilized to purchase subsequently forfeited Generic Time, the vacation time and/or the cash compensable compensatory time shall be reinstated and the money that was paid by the County to the System for the purchase of such time, plus interest, shall be refunded to the County. Where reinstatement of vacation time would cause an Employee to exceed the maximum amount of vacation time that may be accumulated, such maximum shall be waived until the earlier occurring of such excess vacation time being utilized or the passage of two (2) years from the date of reinstatement.

- (g) The Program shall be available to any Covered Employee who is on layoff, sick leave or workers' compensation on the Approval Date, whose employment relationship has not terminated as of the Approval Date, under the provisions of the Union Agreement, or of any amendment thereto, as to Union Employees, or otherwise as to Other Covered Employees, all subject however to the remaining provisions of this paragraph. The application of such an Employee to purchase Generic Time must be made within the first one hundred twenty (120) calendar days immediately following the Approval Date. The annual Compensation used in calculating the purchase cost of Generic Time for such an Employee shall be the product of 2,080 and the Employee's Hourly Wage Rate on the last day worked prior to going on layoff, sick leave or workers' compensation. Such Hourly Wage Rate also shall be used in calculating the value of any vacation and/or cash compensable time for such an Employee, for purposes of a purchase of Generic Time.
- (h) Pursuant to an April 15, 1991, collectively bargained Addendum to the amendment to the Union Agreement with AFSCME Local 496 Chapters 00 and 01, only as to the Union Employee holding the position of Retirement Coordinator on April 15, 1991, and in order to permit efficient implementation of the Program, and other provisions of this Section notwithstanding, the Initial Qualifying Date shall be October 1, 1991, and any action which, but for this Subsection (h) could obtain one or more Program benefits for such Employee only if taken on or before ninety (90) days after the Initial Qualifying Date may instead be taken, with the same result as if taken within such ninety (90) day period, if taken no later than January 28, 1992.
- (i) The provisions of the above Subsections of this Section notwithstanding, whenever, pursuant to any such provision, the last day for any action permitted by this Section would not coincide with a scheduled, regular County business day, such action may be taken, with the same effect as if taken on such otherwise last permitted action day, on the scheduled, regular County business day next succeeding such otherwise last permitted action day.
- (j) The provisions of this Section 54 shall govern over other provisions of this Ordinance to the extent of any inconsistency therewith. Such other provisions shall, however, remain fully effective in applicabilities not inconsistent with this Section.
- (k) Effective November 7, 1995, any of the above provisions of this Section 54 notwithstanding, any

Other Covered Employee of Genesee County, who is exercising the option to purchase Generic Time through the payroll deduction method of paying for General Time, shall have two (2) additional years to complete the arrangement made for the purchase. Effective June 25, 1996, however, any of the above provisions of Section 54 notwithstanding, any Other Covered Employee of Genesee County, who is exercising the option to purchase Generic Time through payroll deduction method of payment, may make one more adjustment in payment schedule than the Employee could have made on or after that date had this provision not been adopted, and, if the Employee either continues to use payroll deduction method to purchase or, while that method is still being used, pays any remaining balance in a lump sum, may complete the purchase within three years additional to the maximum payment completion period that would have been applicable without reference to this subsection.

- (l) Effective December 17, 2002, any of the above provisions of this Section 54 notwithstanding, all Employees who do not hold a position within a County collective bargaining unit and who are within the "Genesee County" group of Employees referenced in Subsection 16 (c) of this Ordinance, including but not limited to officers and department heads, except holders of elective offices, who have completed the purchase of time pursuant to the Generic Time Agreement shall not be required to retire upon attaining twenty-three (23) years of Credited Service provided written notice of the Employee's desire to remain employed is delivered to the Retirement Office at least thirty (30) calendar days prior to the completion of twenty-three (23) years of Credited Service. In that event, the Employee's contribution rate shall increase to five percent (5%) of gross earnings, deducted biweekly, effective upon completion of twenty-three (23) years of Credited Service. The Generic Time Agreement is the arrangement for purchase of Generic Time which was entered into by the Employee pursuant to this Section.

In Resolution 96-253, adopted by the County Board of Commissioners on June 25, 1996 on behalf of the County, the County adopted and established, as an additional component of its overall pension and retirement plan under Section 12A of Act No. 156 of the Public Acts of 1851, as amended, MCL 46.12A, a defined contribution pension plan and a trust therefor (the "defined contribution trust"). The Retirement Commission is not the trustee of the defined contribution trust.

- (b) The adoption agreement for the County's defined contribution pension plan and trust, and Resolution 96-253, both as amended by the County Board of Commissioners on September 4, 1996 in Resolution 96-353, require, and the County will continue to require, that the trustees of the defined contribution trust comply with all applicable requirements of Act. No. 314 of the Public Acts of 1965, as amended, MCL 38.1132 et seq.
- (c) If the secretary of the Retirement Commission (the "secretary") receives written notice from the County Personnel-Labor Relations Department that a Member has elected to participate in the County defined contribution pension plan, and if that notice is accompanied by an original written election to so participate, signed by the Member, the secretary, as administrative officer of the Retirement System, shall, subject to the remaining provisions of this subsection, transfer directly, from the assets of the defined benefit trust to the trustee(s) of the defined contribution trust, an amount equal to the actuarial present value of the Member's benefit which has accrued under the defined benefit pension plan. The amount to be transferred shall be determined by an independent actuary (the "independent actuary"), whose actuarial calculations shall be performed in accordance with generally accepted actuarial principles. The independent actuary will be selected and retained by Genesee County, with such collective bargaining organization involvement in that process as may be required by any collective bargaining agreement. The actuarial methods and assumptions used in determining the transfer amount, subject to subsections (d) and (f), will substantially conform to those which have been used in determining such transfer amounts as of August 31, 1996, being the methods and assumptions summarized in a two page writing titled "Genesee County Employees Retirement System - Calculation of Transfer Values," which writing is Appendix A of this Ordinance. Prior to making any transfer required by this subsection the secretary shall submit to the actuary who has been appointed by the Retirement Commission pursuant to subsection 12(e)(the "Commission actuary") the amount of the contemplated transfer and the data relevant to the actuarial calculation of the amount to be transferred. The Commission actuary, within seven business days of receipt of the amount of the contemplated transfer and the relevant data, shall review the submitted information and advise the secretary whether, based on that information, the amount to be transferred, as determined by the independent actuary, has been calculated in accordance with the actuarial principles, methods and assumptions required by this subsection. The secretary shall not transfer, from the assets of the defined benefit trust to the trustee(s) of the defined contribution trust, an amount, as being equal to the actuarial present value of a specific Member's accrued benefit under the defined benefit pension plan, until the Commission actuary has advised the secretary that such amount, based on the information submitted, has been calculated in accordance with the actuarial principles, methods and assumptions required by this subsection. In the event cash that is within the Retirement System's assets but not within the portfolio of any Retirement System investment manager (such Retirement System, non-portfolio cash being "unallocated cash") is insufficient to fund a transfer required by this subsection, the Retirement Commission shall forthwith liquidate or direct, or shall have directed, liquidation of Retirement System assets, and obtain conversion thereto of unallocated cash, in an amount sufficient to fund the transfer. Cash being temporarily retained by the Retirement System during the process of acquiring the cash required to fund a transfer required by this subsection, and being retained in order to fund that transfer, may be so retained, and neither subsection 42(b) of this Ordinance nor any asset allocation guideline shall be applicable to such cash. Upon a transfer to the trustee(s) of the defined contribution trust of the amount equal to a Member's actuarial present value of the benefit accrued under the defined benefit pension plan, the Member will cease to be a Member of the Retirement System and will have no claim to benefits under the defined benefit pension plan. The Retirement Commission has no obligation or authority to invest, reinvest, hold, sell or assign, or make any further transfer or disposition of, assets which have been transferred under this subsection to the trustee(s) of the

defined contribution trust, and has no responsibility for how such assets are invested, reinvested, held, sold, assigned, transferred or otherwise disposed of by such trustee(s).

- (d) Any other provision of this Ordinance notwithstanding, if a Member has elected to participate in the defined contribution pension plan, no Credited Service, whether Generic Time under section 54 or other Credited Service, will be included within Credited Service for the purpose of determining the actuarial present value of a Member's benefit which has accrued under the defined benefit pension plan, in order to transfer that benefit value to the trustee(s) of the defined contribution trust, unless payment for such purpose has been completed at least thirty (30) days prior to the date upon which participation in the defined contribution pension plan would commence as a result of such election.
- (e) Whether a particular Member may elect to participate in the defined contribution pension plan, other than as provided for in Section 59 of this Ordinance, is neither stated in nor to be governed by this Ordinance.
- (f) Subsection 54(f) notwithstanding, Members who have purchased Generic Time, who, within ninety (90) days after attaining eligibility for Retirement, have elected to participate in the defined contribution pension plan, and who do not retire within such ninety (90) days, do not forfeit their purchased Generic Time.
- (g) This section governs over any other section of this Ordinance to the extent of any inconsistency between such sections.

Lump Sum Payment Option:

Section 59.

- (a) Upon Retirement of a Member who is an Employee in either the Genesee County or the Community Mental Health Employee group, or, effective July 1, 2002, the Water and Waste Services (Sanitary Sewers) non-union Employee group, and who is neither a member of the County Board of Commissioners nor a member of a unit of employees represented by a collective bargaining agent, the Member, with the written consent of the Member's spouse, if any, may elect to obtain transfer of the actuarial present value of the Member's accrued benefit under the Retirement System to an account for the Member within the Genesee County Defined Contribution Pension Plan. The actuarial present value of the Member's accrued benefit, for purposes of this section, shall be the total of the amounts which, absent the election here provided for, would be transferred, upon Retirement of the Member, from the Employees' Savings Fund and from the Pension Reserve Fund, to the Retirement Reserve Fund. In order to exercise the election provided for in this section, the Member must submit to the Retirement Commission a written election no earlier than 90 days before the Member's Retirement and no later than the Member's date of Retirement. The transfer shall be considered to have taken effect as of 12:01 a.m. of the day immediately following the Member's date of Retirement. Upon the Member's Retirement, the Member's election shall be irrevocable and the Member shall have no further claim to benefits under the Retirement System. Other provisions of this Ordinance notwithstanding, a Member exercising this election shall not receive even an initial Retirement Allowance under this Ordinance, the transfers to the Retirement Reserve Fund that would have been made, absent the election, shall not be made, and, instead, upon the Retirement of the Member, the Retirement Commission shall transfer the actuarial present value of the Member's accrued benefit to the trustees of the Defined Contribution Plan trust, for the account of the Member.

- (b) The lump sum payment provided in this section is available only to Members otherwise eligible for voluntary Retirements as provided for in section 22. A Member exercising an election under this section is required to comply with both the Retirement application requirements of subsection 22(a) and the election requirements of this section. A sex-neutral mortality table, adopted by the Commission pursuant to section 14, will be utilized to provide life expectancies for purposes of calculating actuarial present values of Members' accrued benefits under subsection 59(a), and the Commission is not required to utilize that table in calculating actual transfers to the Retirement Reserve Fund. A Member who dies after making and not having revoked the election provided for in subsection 59(a), but prior to the Member's date of Retirement, shall be deemed for purposes of this section only to have (1) retired the day preceding the date of death, notwithstanding that the Member may not have attained the age of 60 years, and (2) elected the above referenced lump sum payment option. A Member electing the lump sum payment option, however, may also provide, in the election, that the election is to be automatically revoked if the Member dies prior to the Member's date of Retirement. If a Member who has provided for such automatic revocation dies prior to the Member's date of Retirement, the Member shall be deemed to have revoked the Member's election of the lump sum transfer and to have died while in the employ of the Employer within the meaning of sections 35 and 36. No benefits shall be payable under either section 35 or section 36 on account of the death of a Member who has elected and not revoked the lump sum payment option provided for in this section. If this subsection is deemed to any extent to be inconsistent with subsection (a), this subsection governs as to the inconsistency.
- (c) Notwithstanding the provision in subsection 59(a), stating that a member of a unit of Employees represented by a collective bargaining agent is not eligible to make the election there provided for, a Member who is an Employee in either the Genesee County or the Community Mental Health Employee group, or effective June 13, 2002, the Water and Waste Services (Sanitary Sewers) Employee group, or effective July 9, 2002, the Road Commission Employee group, and who is a member of a unit of Employees represented by a collective bargaining agent, may make the election otherwise provided for in subsections 59(a) and 59(b) if a collective bargaining agreement has been entered into which provides that such Member may make such election. Effective July 1, 2011, the Section 59 Lump Sum Payment Option is eliminated for a non-union Employee of Water and Waste Services (Sanitary Sewers). Effective September 29, 2012, the Section 59 Lump Sum Payment Option is eliminated for a non-union Employee of General County.

Said designated Retirement date must fall within the confines of the aforementioned Implementation period of August 1, 2000 through December 31, 2000. The Executive Director retains the sole discretion to determine and adjust all dates of Retirement for Employees under the provision of the Early Retirement Incentive Program, within the period of August 1, 2000 through April 1, 2001.

Only Credited Service time attained as of December 1, 2000, excluding any and all "generic" time that may have been purchased by an Employee, shall be utilized to qualify for the aforementioned Retirement Cash Incentive. Employees qualifying for a Retirement Cash Incentive will be issued payment no later than five (5) working days after the Employees' designated Retirement date unless the Employee exercises their written option of being issued payment on January 3, 2001. This cash incentive will not be included in any computation of Final Average Compensation (FAC) under any provisions of the Retirement System.

Minimum Credited Service as of December 1, 2000	Cash Incentive
23 years	One (1) week's pay at base rate (hourly wage rate times forty (40) hours excluding longevity and all other premiums) as of the last day of employment, for each year of Credited Service up to a maximum payment of \$45,000

(c) Purchase of Credited Service ("Generic Time")

Employees with a minimum of seventeen (17) years Credited Service as of July 31, 2000, shall be afforded the opportunity to purchase not more than six (6) years of Credited Service ("generic time") under the GCERS Ordinance, for the purpose of attaining the minimum standard of twenty-three (23) years of Credited Service only, at a rate of five percent (5%) of the Employee's full-time annual Compensation (hourly wage rate, including longevity, times 2080 hours) for the year in which payment begins, multiplied by the number of years of Service credit being purchased; each

day of "generic" time may be purchased at the rate of .0137% of the Employee's full-time annual Compensation as defined above.

Employees shall be allowed to exchange accumulated vacation time or banked holiday time on an after tax withholding basis, to buy "generic time" for Credited Service purposes. The value of vacation time or banked holiday time used to buy "generic time" shall not be included in any computation of Final Average Computation (FAC) under any provisions of the Retirement System.

Amounts paid for the purchase of "generic time," including but not limited to the after tax withholding amount to be paid by the Agency for exchanged vacation or holiday time, shall be deposited with the GCERS, as Employee contributions.

No purchased "generic" time will be applied as Credited Service unless and until the full amount arranged to be purchased has been paid in full in accordance with the above provisions.

(d) Eligibility Requirements

The Early Retirement Incentive Program is not available to former Employees who have previously retired or elected deferred Retirement or any other individual who is not actively employed as of July 31, 2000.

However, any Employee who is on layoff, sick leave, or worker's compensation as of July 31, 2000 and whose employment relationship has not been otherwise terminated is eligible.

Genesee District Library Employment Agreement:

Section 61.

The Genesee District Library (the "Library") and Ingrid Halling ("Halling") entered into a written employment agreement (the "Agreement") for the period October 14, 1991 through December 31, 1996. Under its terms, *inter alia*, the Library agreed to recognize under this Ordinance, for purposes of benefit eligibility and calculation of a Retirement Allowance hereunder, five (5) years of Credited Service in recognition of her prior experience. The Credited Service shall be purchased pursuant to a cost-sharing arrangement. Such purchased Credited Service shall be aggregated with Halling's actual Credited Service on record with the Retirement System to calculate the amount of Halling's Retirement Allowance.

In order to purchase such Credited Service, Halling shall pay in full to the Retirement System her mandatory Accumulated Contributions in an amount as determined by the actuary for each year of purchased Credited Service. The Library likewise shall pay in full to the Retirement System an amount as determined by the actuary equal to its Employer funding contribution required for this benefit.

Ms. Halling's benefit as described in this Section is conditioned upon Ms. Halling and the Library making the respective payment described herein to the Retirement System. Except as modified by this Section, Halling's benefit is subject to the usual terms of the Ordinance.

Section 62.

The City of Mt. Morris (the "City") and Reid S. Charles ("Charles") entered into a written employment agreement (the "Agreement") for a term of three years, effective April 9, 2001. Under its terms, Charles shall be a Member of the Retirement System in accordance with the terms of the Ordinance. If Charles serves as City Manager for the term of the Agreement, the City shall contribute to the Retirement System an amount of money determined by the actuary as sufficient to provide Charles additional Credited Service in the Retirement System equal to the number of months that Charles served as acting City Manager under the Agreement. Such purchased Credited Service shall be aggregated with Charles' actual Credited Service earned during the period of his employment to calculate the amount of Charles' Retirement Allowance under the Retirement System.

Charles' Retirement Allowance as described in this Section is conditioned upon the City making payment described herein to the Retirement System. Except as modified by this Section, Charles' benefit is subject to the usual terms of the Ordinance.

- (d) The QEBA shall be a separate portion of the Retirement System. The QEBA is subject to the following requirements:
 - (1) The QEBA shall be maintained solely for the purpose of providing to Retirants and Beneficiaries that part of the Retirant's or Beneficiary's Retirement Allowance otherwise payable under the terms of the Retirement System, but which exceed the limitations imposed by section 415(b) of the Internal Revenue Code; and
 - (2) Retirants and Beneficiaries do not have an election, directly or indirectly, to defer Compensation to the QEBA.

APPENDIX A

GENESEE COUNTY EMPLOYEES' RETIREMENT SYSTEM Calculation of Transfer Values

METHODOLOGY: Although several Michigan communities have switched to defined contribution arrangements and offered existing Members the option to transfer the present value of their accrued benefits to the new plan, there has not been uniform consistency in the actuarial methods used to calculate these present values. We have generally used the Oakland County method as a standard because it has qualities of fairness and offers Employees incentive to transfer. The unique characteristics of this method are discussed below.

- (1) Benefit commencement age is the earliest age the Member would be eligible to retire based on projected Service (not when he is expected to retire based on actuarial assumptions or could receive benefits if he terminated employment). The basis for this approach is to prevent any possible diminishment in value from what he could receive based on continued employment but suspension of future benefit accrual.
- (2) Mortality is assumed only after Retirement (probability of pre-retirement death is disregarded). Values are discounted from Retirement to current age using only interest. Use of a pre-retirement mortality assumption would imply that if a Member were to die before benefit commencement his accrued benefit would be forfeited.
- (3) Accrued benefits are based on current pay or current FAC.

The first two characteristics result in higher transfer values than the present value of accrued benefits on the valuation basis. In the case of Genesee County, benefits were calculated based on projected pay at Retirement using a 2.5% salary increase assumption instead of current pay. This partially protects Members from the loss of pre-retirement inflation protection in the DC plan.

COMMENT A - Data: Basic Employee census information was received on diskette from the County. Adjustments were made to 7 Employees with missing or questionable data. Data was checked for general reasonableness but not otherwise audited by EFI.

COMMENT B - Mortality and Discount Rates: The 1984 Group Annuity Mortality Table (valuation assumption) with a 100% female mix was used.

We used the valuation interest rate (8%) in discounting present values.

Financial Results - Description of Headings

Accrued Annual Benefit: Benefit based on Service to 8/31/96 based on projected pay at retirement. Pay was projected to increase by 2.5% per year compounded annually.

Present Value @ Retirement: The present value of the accrued benefit at earliest Retirement date, including a 3% simple COLA payable for 5 years, using 8% interest and the 1984 Group Annuity Mortality Table with a 100% female mix.

Discounted Present Value: The present value at Retirement discounted with interest only to 8/31/96. This is the transfer amount.
