Responses to Questions received:

1) What was your annual Spend for the last two years for your HHW events? Totals are as follows:
   - 2017 Total Cost Estimate: $170,000
   - 2018 Total Cost Estimate: $210,000
     (These totals include all event costs, not just HHW collection services)

2) What was the average number of Cars Per Event in the last two years? Totals are as follows:
   - Average vehicle Count for Saturday Events: 1,080
   - Average Vehicle Count for Weekday Events: 350

3) Were there any challenges/Issues you faced with recent HHW events? The primary challenge that may occur at any of our collection events is traffic backups. Many vehicles are coming to one place over a few hours and it can take time to unload materials from these vehicles. If the vehicles are not unloaded in an efficient manner, there are longer wait times and more traffic issues.
